

SNOWBOARDING SKILL LEVELS			
Level	Terrain	Ability Overview	Snowboard Goals
1	Flat with Slight Slope	First time on snowboard on snow	Balance on the board, glide down hill and learn to turn to stop with back foot out of binding.
2	Flat with Gentle Slope	Have spent a few hours on the slope and can traverse or sideslip to a stop on the gentlest of hill.	Balance on the board, glide down hill and learn to turn to stop with both feet in the bindings.
3	Easiest of Green Slopes	Comfortably rides on the gentlest of Green slopes with basic turns.	Introduction to linked skidded turns for speed control and diagonal slipping between turns.
4	All Green Slopes	Rides confidently on all Green trails and slopes controlling speed by linking turns.	Confidently uses linked skidded turns on both the toe and heel side to control speed.
5	Easiest of Blue Slopes	Rides on easiest Blue slopes and slopes controlling speed by linking skidded turns.	Refining linked skidded turns and exploring dynamic control of turns and turn entries.
6	Green and Blue Slopes	Rides on Green slopes using dynamic skidded turns and on Blue slopes using skidded turns.	Refining dynamic entry and control of linked turns on Green and Blue slopes. Introduction of tactics for easy black slopes.
7	Green, Blue and Black Slopes	Consistently rides on Blue runs with linked carved turns and on Black slopes using skidded turns.	Exploration and improvement of dynamic skidded turns and introduction to dynamic carved turns in all terrain and snow conditions.
8	Green, Blue and Black Slopes	Rides with control on some Black runs using linked dynamic carved turns.	Refine dynamic carved turns and steep slope tactics
